Virginia Announces Last Call to Log Internet Needs

The RUOnlineVA initiative identifies connectivity gaps in the Commonwealth and guides state-level broadband-related policy and funding discussions.

July 7, 2016 (HERNDON, Va.) – The Center for Innovative Technology (CIT) announced today that the last day for citizens to participate in the RUOnlineVA campaign is Monday, August 15th.

Governor McAuliffe announced the RUOnlineVA campaign in May as a key component of the Governor's overall strategy to increase connectivity throughout the Commonwealth. The initiative will identify where the need for Internet is the greatest and will help guide state-level broadband-related policy and funding discussions.

Citizens who have not already logged their need for Internet service, but would like to do so, should visit the survey site or call the toll free number to answer a few questions regarding their location and Internet need.

RUOnlineVA is led by CIT in partnership with the Center for Geospatial Information Technology (CGIT) and is supported by Governor McAuliffe, Secretary of Technology, Karen Jackson, Virginia Association of Counties (VACO), Virginia Municipal League (VML), Virginia Economic Developers Association (VEDA), Virginia Planning District Commission (VAPDC), Virginia Rural Center, Virginia Telecommunications Industry Association (VTIA), Department of Housing and Community Development (DHCD), Department of Education (DOE), Library of Virginia, Mid-Atlantic Broadband Cooperative (MBC), and Old Dominion Electric Cooperative (ODEC).

If you are in need of Internet service and would like to log your demand visit RUOnline.virginia.gov. If you are unable to access the website at home you can visit your local library or call toll free (877)969-6685. Results can be viewed at technology.virginia.gov/ru-online-map/.

About the Center for Innovative Technology, www.cit.org

Since 1985, CIT, a nonprofit corporation, has been Virginia's primary driver of innovation and entrepreneurship. CIT accelerates the next generation of technology and technology companies through commercialization, capital formation, market development and revenue generation services. To facilitate national innovation leadership and accelerate the rate of technology adoption, CIT creates partnerships between innovative technology start-up companies and advanced technology consumers. CIT's CAGE Code is 1UP71. To learn more, please visit www.cit.org. Follow CIT on Twitter [@CITorg](https://twitter.com/CITorg) and add the Center for Innovative Technology on [LinkedIn](https://www.linkedin.com/company/cit-org) and [Facebook](https://www.facebook.com/cit.org).
