

Seeking grant funding for technology research or commercialization?

Join us to learn about funding available through the Commonwealth Research Commercialization Fund (CRCF), a Commonwealth of Virginia program managed by the Center for Innovative Technology (CIT).

CIT's staff will introduce the CRCF, a multi-million dollar technology commercialization grant program that helps drive economic growth in Virginia. The team will discuss the FY2019 round, which includes programs available to higher ed, federal labs and other nonprofit research organizations, and the private sector in Virginia. Topics will include eligibility criteria, the solicitation timeline, technical content and budgets, and tips for creating strong proposals.

We will discuss programs aimed at higher ed, federal labs and nonprofit research institutes, including the Matching Funds Program and the Eminent Researcher Recruitment Program. Programs targeting the private sector will also be addressed, including the Commercialization Program, the SBIR Matching Funds Program, and the STTR Matching Funds Program.

Co-sponsored by the ODU Office of Research and the Center for Innovative Technology

Wednesday, Oct. 17

10 to 11:30 am

Strome Entrepreneurial Center,
Old Dominion University

RSVP BY OCTOBER 15
AT ODU.EDU/RESEARCH/CALENDAR
